

PUBLIC HEALTH DATA STANDARDS CONSORTIUM (PHDSC) TESTIMONIAL

The Web-based Resource Center Work Group of the PHDSC would like to request fellow members of the PHDSC to submit testimonials for the Web site about their experience with the PHDSC. The testimonial will serve several purposes:

- Spread the word about the PHDSC;
- Share information about the specific benefits that you/your organization have received from involvement with the PHDSC;
- Give Web site visitors a chance to get to know the various organizations that are already part of the PHDSC;
- Encourage other organizations to join the PHDSC.

Your testimonial does not need to be long. It can describe how you became a member of the PHDSC, explain how the PHDSC is helping you in your work, or articulate what you feel the PHDSC offers to the public health and health services research communities.

Testimonials will be posted on the Web-based Resource Center Web site on a page entitled "About the Consortium." This page explains the mission, background and accomplishments of the Consortium as well as describes how to join the PHDSC and its various workgroups.

If you are interested in submitting a testimonial, please complete the short form below. We value your time and input to help make the Web Based Resource Center a successful product of the Public Health Data Standards Consortium.
